At the forefront of diagnostic technology

SAVE ON PROBLEMS... CHOOSE QUALITY

*Compact, Reliable and User friendly
At the forefront of diagnostic technology*

Biosystems, with more than thirty years of experience and global leadership in IVD markets, offers the most innovative semi-automatic analyzer, the **BTS-350**, opening a new age for clinical diagnostic laboratories.

LOW OPERATING AND MAINTENANCE COST

Humidity proof, dust free Hard Coated Filters and the new low energy consumption LEDs are durable with practically unlimited lifetime.

RELIABLE, CONSISTENT AND POWER FAILURE PROOF

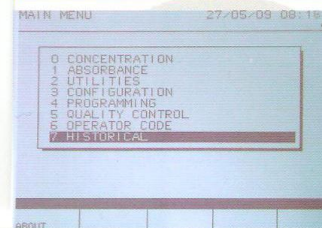

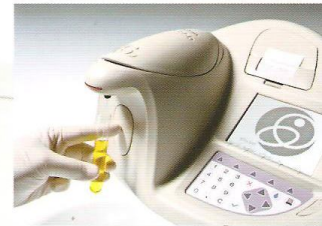

An optional Battery Pack provides 2hrs of back-up energy and stable power supply making unnecessary for costly UPS/CV and avoid loss of work or inaccurate results due to electrical fluxes.

IMPROVED SENSITIVITY

High intensity LEDs integrated into an innovative optical design allows more accurate readings for kinetic and turbidimetric assays (ASO, CRP, RF etc).

FLEXIBLE USER FRIENDLY INTERFACE

Equipped with a very user friendly software that permits up to 150 methods (end-point, kinetics, differential, colorimetric, turbidimetric) covering all routine IVD tests. Levy-Jennings QC charts for all parameters and storage up to 2000 patients results. USB communication allows easy data transfer to computer/LIS.

Test Drive a BTS-350 today
